**Website added to as many free listings as you like.

Continuous hosting and domain renewal.

** Denotes extended package

Why is this site being offered?

If this business is so good why is it being offered?

This website was started in 2011 when the building industry was on the downturn, to aid in extra work and to diversify. It paid off with achieving a high influx and demand causing most leads and work having to be rejected and passed on to other contractors.

The two options were to run the business as a manager and make a profit by adding a percentage on top of cost, or to put it on offer so another individual can take advantage of an already set up and running website with a 1st page ranking and with its instant inquires.

It has been chosen to put up for offer purely for the passion of alternate career and have no longer the time to work in the building industry. Website is currently still in full operation with inquiries being diverted. This business is currently run under the license of [Flawless Tiling](#) which is also on offer.

Pricing, Terms and Conditions

Website is offered on contract basis, with a minimum contract term of 2 years. Maximum contract term of 5 years. Always with the option to renew contract. Notification must be given 3 months prior to end of contract term otherwise automatic renewal will take place of 5 years.

Price

\$1797 per month

Extended package

\$2347 per month

Payment to be made at the last day of every month by direct debit.

10% discount applies if 5 year contract is made

No deposit required only monthly payments.

No payment needed until first 3 months.

Why on monthly contract terms?

When you get a website built you will be paying initially just for the website which is normally anywhere from \$2000 to \$6000. Any alterations after that is generally around \$500 - \$1000 per alteration. This would include adding new information adding images to the gallery additional pages, and so on. You will then face your website not being visible on the search engines search results by potential customers. You will then consult your web designer about this. They will then tell you your web side needs to be maintained and optimized to reach the first page of google which will generally cost anywhere between \$500 and \$3500 plus. Once it appears on google it will slowly drop off again leaving the 1st and 2nd page. You will then consult your web

designer again and they will say that was only to have it on the Google 1st page for a month. You will need to pay anywhere between \$500 and \$3500 per month to keep it on the 1st page of google. This price will not include other marketing strategies.

This package also includes maintaining Facebook and Google plus accounts and well as all other internet marketing strategies.

If you are not familiar with internet marketing it may seem like a lot of outlay but your business will grow at a rapid rate right from go as bathroomrenovationsadelaide.net is already to go. Most small to medium businesses are paying anywhere from \$500 to \$5000 per month for SEO, SEM and website maintenance.

In general a standard bathroom renovation yields around \$10,000 gross with a profit of around \$4000-5000.

What you will achieve and how this will benefit you.

By having this properly marketed website your business will be on top of your competitors. All your web marketing needs will be taken cared of leaving you at peace to run your business

You will achieve,

Inquires

Sales

Profits

Just putting up a website and leaving it is not enough, it must be monitored and maintained to give the best user experience possible. Users like engagement with businesses which makes the business seem more authentic and credible. This is achieved by adding Facebook, Google plus and YouTube to incorporate into the marketing plan. There are numerous other sites to engage in.

Increasing the amount of inquiries will give you a higher sales turn around.

Today conventional advertising doesn't work the only way to be successful is to have a strategic online campaign and a strong web presence.

By implementing this strategic online marketing plan your business will perpetuate to a level where you will dominate and become a business where you will be secure and the ability to grow. It could grow to the state where you will only have to manage your business and to employ contractors to do the work.

This website is best suited to a tiler as it will create the most benefit and allow you to grow from a worker to a businessman, and will need 1 person to full time just to quote.

Combining the website and the additional marketing strategies and conducting your business in a professional manner, will convert leads into sales. Once you have sales your business will snowball generating a perpetual income. Remembering that website maintenance and SEO is ongoing.

This website and marketing strategy is all set to go and will grow with your business.

Don't be fooled by some online marketers that claim they will get your website on the 1st position of google because usually this is not the case and you will end up wasting your money, also be aware of website companies offering you cheap websites as most of the time you will have to do a lot of the work and are mostly template designs, and not be what you want.

Take Action.

To secure your future with this seasoned website and marketing plan.

Step 1.

Contact Paul Placucci and book for an appointment. (See below)

Step 2.

A discussion will take place to find out what your goals are and where you would like to take the website and your business. Designs and layouts will be talked about and if you would like any changes made to the site, and an informative overview can be made on the strategies that will be implemented.

Step 3.

A legal contract will be drawn up and handed to you to thoroughly read through, and note any alterations that may have concern. When both parties are happy with the final contract it can be signed.

Step 4.

Once contract is signed the website will be immediately converted to new business contact details as well as other online advertising. This will be done within 24 to 48 hours. If any design changes are to be made this will be done consecutively.

Continuous work will proceed with the website and online marketing.

The aim is to offer you personalized service and to work together so you can achieve success with your business. Your business is my business and my business is your business, and I need you to be successful because with your success is there success for me.
